TEJIRI ANTHONY

Frontend Engineer

+234 703 606 7516 sirteejay007@gmail.com Lagos, Nigeria

ABOUT

Results-driven Frontend Engineer with 5+ years of experience building responsive, high-performance web applications using React, TypeScript, Next.js, TailwindCSS, and Redux. Proven ability to deliver pixel-perfect UI, integrate REST APIs, and collaborate effectively in Agile environments. Experienced across dashboard development, SEO optimization, and remote freelance delivery for global clients.

WORK EXPERIENCE

Resuss 2024 – Present

Frontend Engineer

- Built the admin dashboard to monitor and visualize data retrieved from the mobile application using ReactJS and TailwindCSS.
- Developed the Resuss marketing website with ReactJS and TailwindCSS, ensuring responsive design across all devices.
- Delivered all features on time with pixel-perfect accuracy against design specifications.

iRespond Africa 2022 – 2024

Frontend Engineer

- Revamped the product interface to improve usability and visual appeal for a diverse user base.
- Built iRespond's assessment platform and multiple UI products using ReactJS.
- Applied SEO best practices to drive engagement and improve search engine rankings.
- Delivered features on schedule following Agile/Scrum methodologies.

ISSL 2021 – 2022

Frontend Developer & Webmaster

- Converted mockups into functional web pages using ReactJS, TailwindCSS, and MUI.
- Fixed UI bugs and performance issues to improve website stability and user experience.
- Managed DNS registration and provided technical support for WordPress-based client sites.

Upwork 2020 – Present

Frontend Developer (Freelance)

- Delivered responsive React and TypeScript web applications for global clients across various industries.
- Translated Figma and design files into clean, maintainable component-based code.
- Maintained strong client relationships through clear communication and on-time delivery.
